The Honourable Richard Allen
Minister of Colleges and Universities
and Skills Development
6th Floor, Mowat Block

Toronto, Ontario M7A 1L2

Dear Dr. Allen:

The Council of Ontario Universities is pleased to submit to you the *Financial Report of Ontario Universities 1990-91*. It is the most recent in a series of publications, which span two decades of financial reporting by universities in Ontario.

This report provides financial information in a format which utilizes consistent categories and definitions for all 43 provincially-assisted universities and colleges in Ontario. This format has been developed by the Council of Finance Officers - Universities of Ontario.

Volume I of this report provides information on 21 degree granting universities and related institutions which receive grants from the provincial government. Volume II provides financial information on 22 church-related colleges, universities and seminaries. Volume III provides information on physical plant operating expenses at 16 universities and was prepared in conjunction with the Ontario Association of Physical Plant Administrators.

I trust that the *Financial Report of Ontario Universities 1990-91* will be of assistance to you, your government and the Ontario Council on University Affairs.

Sincerely,

Peter George
President

CHANGES IN FUND BALANCES

The financial situation at each of the Ontario universities is reflected in the size of its fund balances at the beginning of the fiscal year, the increase or decrease during the year, and the amount in each fund balance at the end of the year. A definition for each type of fund is provided in the Guidelines which follow. For example, the largest of these balances is represented by the non-expendable trust and endowment fund. It is somewhat unique in that the amounts in this fund are obtained from gifts and other forms of revenue which cannot be spent by the university. Only the interest earned on those fund balances can be spent.

Changes which occur in the fund balances during the fiscal year may arise from a number of sources. In addition to normal increases or decreases in revenues and expenditures, these changes may include unusual, major fluctuations in revenues and expenses from year to year. Large purchases of equipment or other items may increase expenditures in one year. An increase or decrease in research activity during one particular year may inflate or suppress expenditures or the level of research grants.

Changes in accounting practices may also have an impact on fund balances. For example, to comply with the Canadian Institute of Chartered Accountants' *Handbook*, some universities altered the way they reported the costs of pension plans and vacation pay. Complying with generally accepted accounting principles may mean that universities have to alter their method of reporting.

Fund balances may also be increased or decreased because of the use of appropriations to commit or reserve funds for specific future purposes. These purposes might include repairs, renovations and replacement of physical assets; purchase order commitments for materials and services ordered but not received; budgetary carry-forwards by departments to permit a delay in making expenditures; or self-insurance against future losses.

Year-end balances in individual funds can also be effected by interfund transfers. Those transfers represent the movement of assets from one fund to another. Significant transfers between funds are the result of approvals by a governing board. For example, donations collected through fund raising campaigns may be transferred from one fund to another. Trust funds and income from endowment funds may be transferred to finance operating, sponsored research and capital expenditures. Profits generated by an ancillary enterprise can be transferred to the capital or operating fund to finance expenditures in those funds. Or, research grants may be received from an outside agency whose generosity must then be matched by the university. This matching process can only be accomplished if funds are transferred into the sponsored research fund.

REPORT OF THE COUNCIL OF FINANCE OFFICERS UNIVERSITIES OF ONTARIO FOR THE FISCAL YEAR ENDED 30 APRIL 1991

This report has been compiled from submissions prepared by each of the provincially-assisted universities and colleges in Ontario. Those submissions have been prepared in accordance with a set of Guidelines, established by the Council of Finance Officers - Universities of Ontario, which are published in Volume I of this report. Further details, concerning the reporting of physical plant operating expenses, are included in Volume III.

Volume I of this report provides financial information on the provincially-assisted universities of Ontario. Volume II provides information on those universities' church-related, federated or affiliated colleges, universities or seminaries. Volume III provides further details concerning physical plant operating expenses.

The Guidelines and reporting forms are generally consistent with those followed in previous years in the publication of the *Financial Report of Ontario Universities*. The only major exception is for the reporting of telephone and other communications expenses within the operating fund. Previously reported within the physical plant function on Table 4, telephone and other communications expenses are now reported within the central computing and communications function.

It should be noted that this publication does not follow the recommendations of the Canadian Institute of Chartered Accountants with respect to pension costs and the accrual of vacation pay. It should also be noted that, of the 43 universities and federated and affiliated colleges included in the *Financial Report of Ontario Universities 1990-91*, 38 reported financial information for the 12 months ending 30 April 1991. The remaining five institutions reported information for 12 months but employed the following fiscal year ends:

Ontario College of Art	May 31, 1991
Ryerson Polytechnical Institute	March 31, 1991
McMaster Divinity College	December 31, 1990
Knox College	December 31, 1990
Wycliffe College	May 31, 1991

Attention is directed to the General Caveat which follows. The Council of Finance Officers - Universities of Ontario would welcome comments and suggestions on this report.

GENERAL CAVEAT

CERTAIN OF THE SUMMARY DATA IN THIS REPORT ARE SUBJECT TO INTERPRETATION OR CLARIFICATION BECAUSE OF INHERENT DIFFERENCES AMONG INSTITUTIONS IN ACADEMIC PROGRAMMES, ORGANIZATION, PHYSICAL ENVIRONMENT, MANAGEMENT PHILOSOPHY AND BUDGETARY AND ACCOUNTING PROCEDURES.

FINANCIAL INFORMATION REPORTED BY THE AFFILIATED AND FEDERATED COLLEGES AND UNIVERSITIES (SHOWN IN VOLUME II) CANNOT BE ADDED TO THE FINANCIAL INFORMATION REPORTED BY THE UNIVERSITIES (SHOWN IN VOLUME I) WITHOUT CERTAIN ADJUSTMENTS. THE CONSOLIDATED SUMMARY TABLES SHOWN IN SECTION 4 OF VOLUME I REFLECT THESE ADJUSTMENTS.

GUIDELINES

I INTRODUCTION

A. University Accounting Procedures

The accounts of universities are maintained in accordance with the principles of fund accounting to ensure that limitations and restrictions placed on the use of available resources are observed. Fund accounting classifies resources for accounting and reporting purposes in accordance with activities or objectives as specified by donors, in accordance with regulations, restrictions or limitations imposed by sources outside the institution or in accordance with directions issued by the governing body. A fund is an accounting entity with a self-balancing set of accounts for recording assets, liabilities, a fund balance, and changes in the fund balance. Separate accounts are maintained for each fund to ensure observance of limitations and restrictions placed on the use of resources. For accounting and reporting purposes, however, funds of similar characteristics are combined into fund groups.

This report accounts for the change (increase or decrease) in fund balances. Consequently, it displays the sources of revenue and types (objects) of expense giving rise to the change.

The accrual basis of accounting - a method of recording transactions by which revenues and expenses are reflected in the accounts of the period in which they are considered to have been earned and incurred - is a further generally accepted accounting principle for college and university financial statement reporting.

Changes in fund balances reported in an institution's financial statements may also have occurred as a result of approved transfers to reserves or appropriation of funds for specific future purposes. Appropriations are a means by which fund balances are committed or reserved for future use, e.g. encumbrances. Appropriations relate to future events and, under the principle of accrual accounting, an increase in appropriations should not be recorded as an expense in the accounting period nor should a decrease in the appropriation be recorded as a source of revenue.

As a reserve, the appropriation should be recorded as an allocation of unallocated fund balances. The actual expense should be recorded in the accounting period in which it is incurred and the related appropriation restored to its unallocated fund balance in the same accounting period. Consequently, while outlining the changes arising from revenues and expenses, separate provision in the reports has been made to reflect the net change in reserve and appropriation accounts (Table 1).

B. Reporting

For purposes of reporting, all funds have been identified as being either expendable or non-expendable. Expendable funds have been identified as being either general or restricted. General funds are subdivided into operating, other (non- credit) and ancillary enterprises while restricted funds include sponsored research, trust and endowment and capital. In addition, expenses of the operating fund are further segregated into operational (functional) areas. Non-expendable funds generate investment income, which may be utilized for various purposes, but the principal of the funds cannot be expensed.

Normally, the criteria for reporting a particular revenue or expense within a fund entity or functional area on the report forms are the same as those used for the financial statements of an institution. When revenue and expense are classified differently by an institution, the guidelines specifically require that they be reported according to its instructions, regardless of the institution's practice. For example, health services and athletics are to be reported in the student service functional area even if they are carried as ancillary enterprises by a university. However, the opening and closing fund balances shown on Table 1 of each institution's report must reflect the balances shown on the institution's audited financial statements.

C. Submissions

A separate report is filed covering each federated or affiliated institution such that information can be included in a publication separate from that of the main university.

II PRINCIPLES OF REPORTING

A. Fund Concept

The concept of fund accounting distinguishes between those funds which are expendable and those which are non-expendable. Expendable funds are further grouped as either general or restricted with additional sub-groupings within each category.

General expendable funds, including operating, other (non- credit), and ancillary enterprises, should reflect the traditional matching approach of incurred expenses with earned revenues.

Restricted expendable funds, including sponsored research, trust and endowment, and capital, should be reported using a "funds flow" approach, that is, revenues should be reported when due and expenses as incurred on an accrual basis with the difference representing the annual change (increase or decrease) in fund balances.

B. Revenues and Expenses

1. **Net Reporting** - The net reporting approach is used by the guidelines because it best reflects the major operations of the university. Therefore, revenue derived from outside the university from sales, rentals or the provision of services (the costs of which are reflected in other functional areas) should be netted against the objects of expense related to the generation of these revenues. However, profits included in these revenues should not be netted against expense but rather shown as miscellaneous revenue.

   Examples of *revenues which must be netted* are:

   (a) computer service sales to outside organizations. The cost of the academic computer centre should primarily reflect the centre's cost of the educational service. The recovery of revenue is merely an assistance to the financing of this facility.

   (b) sale of central services (e.g., power, heat, etc.) to external organizations. The sale of power, heat, etc. may reflect an oversized facility when related to university use only and which, if included at gross, would distort the significance of this expense.

   (c) medical salaries recovered from the Ontario Ministry of Health;

(d) payments for teaching or administrative services between universities and affiliated institutions. To prevent the double counting of costs for individual expense items on aggregation of the reports, the recipient university must net out the receipt against the applicable expense items;

(e) physical plant costs recovered from external sources; and

(f) revenues from university employees or outside organizations for the use of athletic facilities.

Examples of *revenues which must not be netted* against expenses are grants, student fees, and ancillary revenue.

2. Internal Cost Transfers and Cost Recoveries

A particular fund or function may incur costs which properly should be charged (allocated, transferred) to another fund or function within the university. Common examples include the allocation of administrative costs as overhead to ancillary enterprises and sponsored research, or printing costs transferred by the printing department to individual departments.

Two methods are available for transferring expenses from one fund or function to another. The direct approach of modifying the applicable line items should be used where specific expense identification is possible. *This method should be used as much as possible.* It is acceptable that this allocation be made on a "best-estimate" basis. Where specific expense identification is not possible, the alternative method is the use of the object of expense "internal cost allocation"; e.g. allocation of computer costs.

3. Gifts-in-Kind

These must be reported as *both* revenue and expenses within the appropriate fund or function.

C. Appropriated Funds

Expenses, which have been funded from reserves or appropriations in the financial statements of a university, should be reported as expenses. Amounts transferred to create or increase a reserve or appropriation account should *not* be reported as expenses.

Similarly, fund transfers to eliminate or reduce a reserve or appropriation account should not be included as revenue or netted against expenses. Instead, these transfers are shown on Table 1.

For example, provisions for the replacement of assets are considered to be transfers to reserve or appropriation accounts and, consequently, are not to be reported as expenses.

III DEFINITIONS

A. Funds

1. General Expendable Funds

General Expendable Funds account for the general operational costs of the university financed by fees, grants and other general income.

(a) *Operating* - this fund accounts for the costs of instruction, research other than sponsored or contract research, academic support services, library, computing, student services, administrative services, plant maintenance and other operating expenses of the university financed by fees, grants and other general income.

(b) *Other (Non-Credit)* - this fund accounts for all revenues and expenses associated with lectures, courses, and similar activities which are not recognized by the institution for the purpose of granting credit.

(c) *Ancillary Enterprises* - these operations reflect services provided as supplementary to the primary function of instruction and research. Although an integral part of the institution's total operations, they are reported separately.

Ancillary operations are typically provided on a "fee for service" basis and include revenues and expenses of "sales producing", non-teaching areas, such as the bookstore, food services, residences, parking, university press/publishing, property rentals, university facility rentals, theatres and conference centres.

Where services are provided to other departments in the university, revenues from those services should be netted against expenses.

Expenses for furniture and equipment and capital debt repayment borne directly from ancillary enterprise revenue are to be shown in this fund in their respective objects.

2. Restricted Expendable Funds

Restricted Expendable Funds account for resources that may be used for current purposes, but with some degree of limitation as to the exact use.

(a) *Sponsored Research* - this fund accounts for all research activities and contract research funded from government and private sources.

(b) *Trust and Endowment* - this fund accounts for expendable gifts, benefactions, grants available for special purposes (other than operating, research, or capital), and interest earned on non-expendable gifts, in accordance with donors' intentions.

(c) *Capital* - this fund accounts for grants and monies available for capital purposes, including building programs, acquisitions of major equipment, and major renovations. Capitalization of and equity in fixed assets (e.g. equipment, library acquisitions) are not part of the expense and the fund balance respectively.

3. Non-Expendable Trust and Endowment Fund

This fund accounts for the capitalization of gifts which cannot be spent and the capitalization of revenues.

B. Revenue Sources

1. **Government Grants and Contracts** - this object will include all grants and contracts from the Ministry of Colleges and Universities and other Ontario government departments and agencies, federal and municipal governments and governmental agency sources. Grants and contracts from other provinces and from foreign governments are to be reported under "Other Government" grants and contracts. Government grants received by a university on behalf of its affiliates should only be reported as revenue by the affiliate to avoid double counting.

(a) Ontario Ministry of Colleges and Universities

(i) MCU Formula Grants - includes basic grant only.

(ii) MCU Extra Formula Grants - includes only:

- northern grants
- bilingualism grants
- differentiation grants
- other supplementary as recommended by OCUA.

(iii) MCU Other Grants - includes:

- teacher education
- off-campus programme
- grant in lieu of municipal taxes
- second language and francophone grants
- capital grants
- university excellence fund
- university student residence program.

(b) Other Ontario Grants - include Capital and other grants received from other provincial ministries; e.g. grants and contracts with Centres of Excellence, OMAF grants for Guelph, Education Block grant to OISE, and energy management grants. While some of these grants may be administered by MCU, the "Source of Funds" may be other than MCU and, therefore, should be reported here rather than under the previous (iii).

(c) Federal

This will include all grants from the Government of Canada or its agencies.

(d) Municipal

Include all grants received from municipalities.

(e) Other Governments

This will include all grants from, and contracts with, other provinces and foreign governments.

2. **Fees**

   (a) Tuition credit - includes fees for fall and winter sessions of a semester type operation, all three terms of a trimester operation, the year-round operation of graduate schools, intersession, spring session credit courses and credit extension. Fees for "make-up" or special courses which are related to the credit offerings of an institution and fees for auditing in credit courses are included.

   (b) Tuition non-credit - includes fees for lectures, courses, and similar activities which are *not* recognized by the institution for the purposes of granting credit.

   (c) Miscellaneous - includes all other fees charged to students, including room and board charges, health services, athletics, charges for deferred or instalment payment, late registrations, and lockers, but excluding fees collected and turned over to student-controlled and administered areas such as Student Councils or Federations.

3. **Borrowings** - this category includes only those borrowings which are used to finance capital expenditures, where the university will repay both interest and principal.

4. **Donations** - includes amounts and gifts-in-kind received from individuals, companies, foundations, charitable institutions, associations, and societies which are considered to be gifts for tax purposes and eligible for tax receipts as charitable donations.

5. **Non-Government Grants and Contracts** - includes amounts received from individuals, corporations, foundations and associations for which no tax receipts are provided and which are not considered as charitable donations for tax purposes. Contracts provide financial support under certain specific stipulations and conditions, including the provision of a deliverable product, such as a piece of equipment, provision of a service, or a report.

6. **Sales of Services and Products** - includes external receipts from sales in ancillary enterprises, excluding room and board charges to students. Revenues associated with services to other departments within the university should be netted against the appropriate objects of expense.

7. **Investment Income** - includes income from dividends, bonds, mortgages, short-term notes and bank interest. Realized gains or losses, if treated as income, should also be included in the applicable fund area. Significant non-recurring items should be noted. Interest charged to student loans or other non-tuition fee accounts receivable should be allocated to investment income.

8. **Miscellaneous** - include any form of revenue not identified in the above categories of revenue.

C. Operating Expenses - Functional Areas

1. (a) **Instruction and (Non-Sponsored) Research - Excluding Medicine** - this functional area includes all direct costs of faculties, academic departments, graduate school, summer school, credit extension, deans and departmental offices and other academic functions and expenses attributable to the area of Instruction and (Non-Sponsored) Research.

   (b) **Instruction and (Non-Sponsored) Research - Medicine** - this functional area includes all direct costs of the Faculty of Medicine. These costs are to be shown net of recoveries from the Ontario Ministry of Health (Treatment and Rehabilitation Funds), that is they are to be deducted before expenses are entered on the report and not as a lump sum offset or as revenue. The expenses of *all* other areas of Instruction and Research (including Health Sciences other than the Faculty of Medicine) are to be shown under 1 a).

   Research funded directly from the university's operating revenues should be reported in this function.

2. **Library** - this area encompasses the institution's main library, branch, faculty or departmental libraries. All purchases of books and periodicals from operating funds should be shown under this functional heading.

3. **Central Computing and Communications** - only expenses for central computing and communication facilities are recorded in the functional area "central computing and communications".

   A central computing facility is defined as comprising those computer-related activities and resources which, due to (a) economies of scale, (b) the existence of a large number of users who require a wide variety of services, and (c) the high degree of technical expertise required in computer operations, are budgeted and administered under a central management.

This is usually seen as a university resource providing a centralized support service to the institution's instruction, research and administrative areas.

This contrasts with stand-alone computer installations established for the main purpose of providing services to a single division or department. Where facilities are meant to serve a single division or department, the expenses of these remote computing resources should be reported within the relevant fund or functional area. For example, a computing facility in the library to provide library computing should be included in the Library function.

Communications includes the costs of telephone equipment rental, acquisition and switchboard, including related personnel and other costs.

If an institution employs a charge-out system for central computing time or telephone equipment usage, the expenses should be drawn together and reported under this column. Having drawn together the total costs of computing, EDP installations, and telephones, a segregation is required of the total operating expenses between "Academic" (Instruction and Research and Library) computing, "Non-academic" computing, and "Communications". This segregation is reported in the space provided at the bottom of the financial reporting form for Operating Expenses, Table 4.

If, however, an allocation of costs to other funds is to be reflected, the Object of Expense "Internal Cost Allocation" should be used for the purpose of recording these transfers (e.g., charges made to the Sponsored Research Fund). Thus the function will show the *net* cost to the operating fund.

4. **Student Services** - this functional area includes the cost of services (other than direct teaching, research and administrative services) provided to students by an institution. Generally, these services will include counselling; both intramural and intercollegiate athletics (not physical education); Dean of Students; placement services; student housing services (not to be confused with residence hall operations); student transportation services; grants to student organizations; student programme costs, e.g., cultural, music, drama; student centre costs and student awards administration.

   If any of the foregoing activities are carried as ancillary enterprises on the financial statements of the institution, the revenue and expenses should be transferred to this functional operating area for reporting purposes. These services may be provided from general revenue or wholly or in part by a specific charge included in the incidental fee structure.

Note: Student Activity Fees collected and turned over to student councils or federations are to be excluded where an institution is acting in an agency capacity.

5. **Administration** - this function includes the administration, planning and information costs and activities associated with the offices of the president and vice-presidents, the registrar and admissions (including student recruitment and high school liaison), research administration, space planning, board and senate secretariat, finance and accounting, personnel, central purchasing, receiving and stores, institutional research, and general university memberships, e.g. COU, AUCC, CAUBO.

   If purchasing, receiving and stores are centralized, then these expenditures should be included under Administration. If these services are not centralized then these expenditures should be included in the various functional areas.

6. **Physical Plant** - this functional area reflects costs related to the physical facilities of the university, including the following:

   (a) Physical Plant Administration - activities necessary to carry out the duties of management and administration for all areas under the jurisdiction of the Physical Plant Division.

   (b) Building Maintenance - routine repair of buildings and structures, including normal recurring repairs and preventive maintenance.

   (c) Custodial Services - janitorial and custodial services to buildings and structures including care and waxing of floors, washing of windows and costs of all cleaning contracts let to outside cleaning contractors (including window-washing).

   (d) Utilities - costs of heating, cooling, light and power, gas, water, and any other utilities necessary for the operation of the physical plant.

   (e) Landscape and Grounds Maintenance - operation and maintenance of campus landscape and grounds.

   (f) Security and Traffic - costs for watchmen, police services related to plant and campus security, and vehicle control. Costs relating to "parking lots" are to be segregated and reported as an ancillary enterprise.

(g) Other - services and costs which are often the responsibility of Physical Plant Departments, such as:

(i) Hauling, moving and storing of furniture for other departments.

(ii) The costs of courier services, mail services, postal services, porters, or services requiring technical direction at the time of performance which are usually provided by the department having specific jurisdiction.

(iii) Property taxes and other municipal assessments.

(iv) Vehicles.

(v) Unabsorbed physical plant costs relative to chargeouts, not recovered from departmental work orders.

(vi) Property and liability insurance.

(vii) Renovations, alterations and major repairs.

(viii) Costs of renting space and land together with property taxes paid theron.

Costs reported should represent the total operating costs of the physical plant function as defined in the Guidelines and may not, therefore, necessarily reflect how they are reported in a university's financial statements. Further instructions as to how physical plant costs are to be classified may be found in the guidelines and definitions established by the Council of Finance Officers - Universities of Ontario and the Ontario Association of Physical Plant Administrators (OAPPA). These principles of reporting, guidelines and definitions are published in Volume III, Physical Plant Operating Expenses of this report.

Note: Central purchasing, receiving and stores are to be recorded in the function Administration. For further explanation, see the definition of the functional area Administration.

7. **Other** - this area is used for all other operating expenses including the development office, alumni office, public relations, and the administration of the occupational health and safety programme, including the disposal of hazardous wastes. It would include expenses for professional fees (legal and audit), convocations and ceremonies, and insurance (except fire, boiler and pressure vessel, property and liability insurance which are reported under the physical plant function).

D. Object of Expense

1. Salaries and Wages

(a) Academic Ranks - this object includes salaries paid to staff who hold an academic rank in the reporting institution from lecturers to deans inclusive (both full or part-time) in faculties, academic departments or programmes, summer schools, credit extension courses and other academic functions. Salary payments to staff members on paid academic leave are also included.

(b) Other Instruction and Research - payments made to staff members without academic rank at the reporting institution who are engaged in instruction and research as instructors, tutors, markers, demonstrators, teaching assistants, research assistants, invigilators, clinical assistants, post-doctoral fellows, and others are to be included. Payments made to graduate and undergraduate students undertaking these activities are included.

(c) Other Salaries and Wages - this object reflects all salaries, wages and payments to non-instructional staff (support staff) including among others, technicians, clerical and secretarial, professional and managerial, janitorial, trades and maintenance. All salaries for functions other than Instruction and Research are to be included in this object even though individuals, (e.g., certain professional librarians or computing centre personnel), may hold the equivalent of an academic rank.

Note: Salaries paid from Sponsored Research funds are to be shown in that Fund column in the appropriate object line.

2. **Employee Benefits** - this object is to reflect an institution's contributions (with respect to salaries) for pensions (including payments for actuarial deficiencies and past service liability), group life insurance, salary continuance insurance, dental plans, cost of Workers' Compensation and the Employer Health Tax, free tuition, unemployment insurance, early retirement benefits and other costs of an employee benefit programme. Memberships or other perquisites of employment are not to be reported here. Whenever an institution pays a premium or sets aside an amount for an employee, these amounts should be included under employee benefits. Other categories of compensation payments to employees shall be reported under salary expenditures (for example, salary continuance payments during sick leave or maternity leave).

3. **Library Acquisitions** - this object will include all purchases of books, periodicals, microfilms, microfiche and other reference materials, (including costs of bookbinding), with respect to the institution's main library, branch and faculty or departmental libraries.

4. **Equipment and Furniture** - this object will include all purchase, rental and maintenance expenses for equipment and furniture, including laboratory equipment (other than consumables), administrative equipment and furnishings (including carpets and drapery), copying and duplicating equipment, computing equipment, and maintenance equipment. Instalment payments, as a result of external and internal financing, lease purchase computer contracts, and installation costs are included.

5. **Operational Supplies and Expenses** - this object includes all expenses for supplies, postage, reproduction (i.e., all reproducing and printing carried out by the university), publications, telephone long distance charges, repair materials, office supplies, and computer software packages.

6. **Cost of Goods Sold** - this object is to be used where an inventory method of accounting is normally employed, (e.g. bookstore, food services) and should include the laid down cost of goods purchased for resale *only*. The remaining costs of operating the service, i.e. salaries, supplies, etc., are to be shown in their respective objects. Where a service is externally contracted, particularly in the ancillary enterprises area, the *total* costs of the contract should be included in the object "Externally Contracted Services", referred to below.

7. **Utilities** - expenses for fuel, electricity, water, gas and telephone equipment rental, acquisition, amortization, installation, and maintenance costs are reported in this object. The cost of utilities is to be included in total under the functional area "Physical Plant".

8. **Municipal Taxes** - property taxes for which there are compensatory grants as well as all other payments for municipal services out of operating funds are to be included.

   Taxes paid in relation to space rental are not to be reported here; these amounts should be included with other costs of space rental under the object entitled "Miscellaneous".

   Note: Municipal taxes for which compensatory grants are received from the province are to be shown in the Physical Plant functional area of operating expenses, as are other payments for municipal services (e.g., garbage disposal, fire protection) out of operating funds.

9. **Renovations and Alterations** - this object includes all expenses for renovations and alterations to existing university space. If externally contracted, these expenses are to be reported under this object and not as "Externally Contracted Services". If internally performed, the total costs including labour and materials should both be reported in this object.

10. **Externally Contracted Services** - all expenses for services contracted to external agencies (except for renovations, alterations, and equipment maintenance) are to be included. Examples of expenses to be included would be cleaning contracts, security services, snow removal and similar time and material contracts under physical plant, and food services under ancillary enterprises. Where food services are contracted, the contract amount in total should be shown under this object and *not* under cost of goods sold or other objects, even though the contractor may provide a breakdown.

11. **Scholarships, Bursaries, etc.** - this object will include all payments to students (except those for which the student is required to perform service for that payment) including fee remission, prizes and awards.

    Note: This expense is to be displayed under the "Student Service" functional area of operating expenses on Table 4.

12. **Principal and Interest Repayments** - this object reflects all principal and interest repayments on university debts. Even though the institution's financial statements may reflect the repayment through the Capital fund, the repayment should appear under the appropriate fund (i.e. either Operating or Ancillary).

13. **Land and Site Services** - this object is to include acquisition costs, land improvements and site preparation, including landscaping, sewers and road. Also include fees and planning costs relative to the direct expenses.

14. **Buildings** - all expenses which are normally considered part of the construction costs are to be included. Where applicable, furniture and equipment and site services are to be segregated from the total contract for inclusion in their specific objects of expenses. Include all fees and planning costs associated or directly attributable to this object as well as any costs such as utilities incurred during construction.

15. **Miscellaneous** - this category of expenses includes amounts not reported in the previously identified objects. Categories of expenses may include recruitment, travel and field trips, relocation, entertainment, memberships, ceremonials, assistance to student organizations, insurance, legal fees, audit fees, consultants' fees, cost of renting space and land together with property taxes paid thereon. Expenses which can be properly identified as belonging to another object are not to be included here, particularly those which fall within the category of operational supplies and expense.

16. **Internal Cost Allocation** - this object is intended *only* for internal transfers of costs among funds and not between functions within the Operating fund. Wherever possible or feasible, direct allocation of expenses should be reported in the appropriate fund and this object *should not be used for reporting expediency*. Reductions in the objects of expense of one fund should be offset by corresponding increases in those same expense objects of the other fund.

    Within the Total Operating Expenses *all* objects should have direct allocation into the functional areas and this object will therefore only represent the net effect of transfers to other "funds". This object of expense will not be used in respect to the Physical Plant functional column. On Table 3 of the report forms, this object of expenses *must* cross-add to Nil.

E. Tables

1. **Table 1 - Combined Revenue and Expense and Changes in Fund Balance** - this table is a statement, for each fund, designed to bring together, in summary form, total revenues and expenses to show the institution's net revenue and expense by fund, before and after interfund transfers and appropriations. The table also reconciles the institution's financial results as classified according to the guidelines with those reported on the institution's audited financial statements. Finally, the table reports the institution's fiscal year opening and closing balances by fund.

    Total Revenue and Additions reflects the totals reported on Table 2. Total Expense reflects the totals of all expenses reported on Table 3. Net Revenue (Expense) reflects the difference between Total Revenue and Additions and Total Expense. Net Reconciling Items reflects the net adjustment required to make the Increase (Decrease) For the Year per COFO-UO Report agree with the institution's financial statements. This adjustment is necessary when revenues and expenses, as defined by the Guidelines, are different from the way an institution reports its revenues and expenses on its financial statements. Interfund Transfers reflect transfers between funds where expenditures in one fund are financed by revenue of another fund and are offsetting. Net Variation in Appropriations reflects the net amount of increases and decreases in the institution's appropriations as defined by the Guidelines and shown on Table 5.

The Balance - Beginning of Year per Financial Statements - reflects the institution's opening balance in each fund at the beginning of the fiscal year. The Balance - End of Year per Financial Statements - reflects the Balance - Beginning of Year - plus or minus the increase/decrease for the year and must agree with the closing fund balances shown on the institution's financial statements. The equity in an institution's fixed assets is not considered part of the fund balances for the purpose of the report and will not, therefore, be included in opening and closing balances of the Capital fund.

2. **Table 2 - Revenue and Additions by Source and Type of Fund** - this table reports the institution's total revenue and additions by type of fund and source for the current fiscal year. The sum of revenues and additions of each fund is carried forward to the appropriate line item on Table 1.

3. **Table 3 - Expenses (All Expendable Funds) by Object and Type of Fund** - this table reports the institution's total expenses by type of fund and object of expense for the current fiscal year. The sum of expenses of each fund is carried forward to the appropriate line item on Table 1.

4. **Table 4 - Actual Operating Expenses by Object and Functional Area** - this table reflects, in further detail, the objects of expense (as reported for the Operating fund on Table 3) by various functional areas.

5. **Table 5 - General Funds Changes in Appropriated Fund Balances Per Financial Statements** - this table itemizes the increases and decreases in the institution's appropriations as classified by the Guidelines. Appropriations are a means by which Operating or Ancillary funds may be committed or reserved for specific future purposes in accordance with institutional policy.

   This table also provides a Reconciliation of the Net Variation in Appropriations, as defined by the Guidelines, with the net change reported in the institution's audited financial statements. Finally, the table shows the fiscal year's opening and closing appropriated balances, as reported on the institution's audited financial statements.

An Increase in appropriated funds is caused by an appropriation of current funds for use in future years. A Decrease in appropriated funds is caused by expending funds appropriated during previous years.

The table groups appropriations of operating funds into the following five categories:

1. Provision for repairs, renovations and replacement of physical assets in future years.

2. Purchase order commitments representing funds set aside to pay for materials and services ordered but not received in the current year.

3. Budget appropriations carried forward for specific budgetary purposes in subsequent years. These can arise from commitments, to various budget centres, to allow the complete or partial carry-forward of budgeted funds where it is determined that it would be in the best interests of the university to defer a particular expenditure to the following year.

4. Funds set up for self-insurance to protect against uninsured losses, for example to cover the deductible amounts under fire and theft insurance policies.

5. Finally, an "Other" category is employed to report various types of appropriations which are not defined in the preceding categories. Examples include provisions for pension liabilities, library or instructional development.

The first two categories, as well as the final "Other" category, are also reported for ancillary enterprises.

Note: In addition to the above revenue and expenses, $28,517 thousand was provided in Treatment and Rehabilitation (T. & R.) funds from the Ontario Ministry of Health. These funds were provided as reimbursement to the universities, for services provided by members of the academic staff to the teaching hospitals, and were expended as salary payments to the members of academic staff who provided services.

GUIDELINES AND DEFINITIONS

I INTRODUCTION

Each year an analysis of physical plant operating expenses, also known as the OAPPA Report, is prepared under the joint auspices of the Ontario Association of Physical Plant Administrators (OAPPA) and the Council of Finance Officers - Universities of Ontario (COFO-UO). This report provides an analysis of physical plant costs, by major functional area and object of expense, as reported in the operating fund of each university.

The financial accounts of universities are normally maintained in accordance with the principles of "fund accounting" to ensure that limitations and restrictions placed on the use of available resources are observed. In the *Financial Report of Ontario Universities*, prepared each year by COFO-UO, the revenues and expenses related to the following "funds" are identified (see exhibit 1).

- Operating Fund
- Other Non-Credit Fund
- Ancillary Enterprises Fund
- Sponsored Research Fund
- Trust and Endowment Fund
- Capital Fund

Physical Plant costs are charged to each of these "funds" as appropriate by the universities. In addition, the COFO-UO Financial Report provides a further breakdown of the operating fund into the following functions (see exhibit 2).

- Instruction & Research
- Library
- Central Computing and Communications
- Student Services
- Administration
- Physical Plant
- Other

Volume III of the Financial Report provides a separate detailed analysis of the function of Physical Plant applicable to the Operating Fund. As such, it only provides an analysis of the physical plant costs which are incurred in relation to the basic academic and academic support activities of each university, reflected in the operating fund and, therefore, permits a greater degree of comparability between universities than if it included the physical plant costs related to all "funds". For example, physical plant costs related to the ancillary fund are excluded from this report.

As the information in the various volumes of *Financial Report of Ontario Universities*, are closely related it is essential that they be prepared in accordance with uniform guidelines and definitions. To achieve this necessary degree of consistency, the following guidelines and definitions have been developed by a subcommittee that has been jointly appointed by OAPPA and COFO-UO. These guidelines are consistent with those in force for the other volumes of the Financial Report.

II PRINCIPLES OF REPORTING

In order that the physical plant cost data submitted by the various universities will be as comparable as possible, OAPPA and COFO-UO have approved and adopted the following Principles of Reporting for the Physical Plant Report.

A. Functional Reporting of Physical Plant Costs

The costs reported as Physical Plant in Volume I of *Financial Report of Ontario Universities* (exhibit 2) should represent the total costs of the physical plant function relative to the operating fund as defined in the COFO-UO guidelines. The COFO-UO Guidelines for Volume I of the Financial Report instructs that any physical plant costs, e.g. alterations, renovations and maintenance expenses, which may be charged to other functional areas within the operating fund by a university, all be regrouped and reported as Physical Plant.

B. Net Reporting

The COFO-UO Guidelines for Volume I of the *Financial Report of Ontario Universities* instruct that all costs be reported as net. As a result, cost recoveries for services rendered to other funds or external organizations should be netted against the particular objects within each function on the Physical Plant Report shown on exhibit 3, Table 1.

C. Agreement With COFO-UO

The costs reported in the Physical Plant Report represent a more detailed presentation of the aggregate costs defined and reported as Physical Plant in

Volume I. When the costs in the Physical Plant Report are aggregated they must be identical to those reported as Physical Plant in Volume I.

III DEFINITIONS AND EXPLANATORY COMMENT

A. General

The physical plant functional area reflects costs of the physical facilities of the university as they relate to the operating fund including physical plant administration, building maintenance, custodial services, utilities, landscape and grounds maintenance, security and traffic control and other physical plant costs including building renovations, alterations and major repairs.

The various physical plant functional areas are defined in the following section.

B. Table 1: Actual Operating Expenses - Physical Plant

Table 1 (exhibit 3) reflects the distribution of the Physical Plant costs reported in aggregate in Volume I of the *Financial Report of Ontario Universities*.

(i) DEFINITIONS OF MAJOR FUNCTIONS

1. **Physical Plant Administration** - this function includes all activities necessary to carry out the duties of management and administration for all areas under the jurisdiction of the Physical Plant Department. Examples of the activities are:

    (a) Administration - this category includes salaries, wages, employee benefits, travel, equipment and other operating costs required for administrators, assistant administrators, office personnel (including account keeping done by the Physical Plant Department such as payroll, billing, material ordering, personnel records, space management, and dispatching of work orders), other administrative operating costs (including supplies, materials, telephone long distance charges, postage, computer rental, accounting machine costs, and career training programmes). Salaries and benefits for supervisory personnel directly responsible for one or more functional area should be shown in the appropriate functional area(s).

(b) Engineering - this category normally includes salaries, wages, employee benefits, travel, equipment and other costs required to provide technical and engineering services necessary to carry out the functions assigned to the Physical Plant Department to the extent that these costs are funded out of the operating budget. The category includes engineers, architects, draftsmen, estimators, schedulers and preparation of documents for contractual maintenance, renovations and alterations as well as analysis of systems and modes of operation, plant records, etc.

(c) Planning - this category includes preparation of architectural and engineering plans and specifications for alterations and new construction to the extent that these costs are funded out of the operating budget.

2. **Building Maintenance** - this function includes all items related to routine repair of buildings and structures, including normal recurring repairs and preventive maintenance. It does not include renovations and alterations which are funded from outside the operating budget. The following are to be included:

(a) Salaries, wages and employee benefits for all personnel, including supervisory, who are assigned to the "Building Maintenance" function (see section B(ii) for a definition of salaries and wages). This includes drivers assigned to vehicles which serve the maintenance function.

(b) Interior and Exterior of Buildings

(i) Plumbing, heating, air conditioning, and ventilation.

(ii) Electrical repairs of all types *excluding* primary systems and primary building sub-stations but *including* secondary systems, certain lamp replacements (requiring special ladders and rigging) and maintenance of outdoor lighting fixtures which are a part of the building.

(iii) Carpentry and cabinet making.

(iv) Painting and glazing.

(v) Hardware, locks, keys, closers and records.

(vi) Roofing and sheet metal work, including down-spouts and gutters.

(vii) Welding and necessary machine work.

(viii) Elevators and other building machinery.

(ix) Miscellaneous building repairs such as tuck-pointing, blinds, etc.

(x) Costs of testing fire sprinkler systems, alarms, fire extinguishers, and similar protective devices.

(c) Maintenance and replacement of and additions to all furniture, furnishings and equipment pertaining to the physical plant buildings.

(d) Maintenance of utility distribution systems inside the building including electrical, heating, cooling, process steam, water lines, gas lines and sewer lines (both storm and sanitary), etc..

(e) Operating and replacement costs of all equipment, materials, and tools used in connection with building maintenance (exclude hand tools furnished by the employees).

(f) Operating costs for vehicles which serve the maintenance function.

3. **Custodial Services** - this function includes all costs relating to janitorial and custodial services to buildings and structures including care and waxing of floors, washing of windows and costs of all cleaning contracts let to outside cleaning contractors (including window-washing).

(a) Salaries, wages and employee benefits of all personnel, including supervisory, who are assigned to the "Custodial" function (see section B(ii) for a definition of salaries and wages).

(b) Small set ups only where materials for the special set ups are stored or kept within the same building.

(c) Snow removal immediately adjacent to building.

(d) Other operating costs such as paper, paper towels and tissue, wax, erasers, chalk, cleaners, and other materials and supplies.

(e) Operating and replacement costs of all equipment used in connection with custodial services.

(f) Lamp replacement where lamps are readily accessible without special ladders and rigging.

Common operations include: Mopping, sweeping, waxing of floors (sanding and refinishing of floors are excluded); dusting, polishing of furniture and fixtures such as venetian blinds, partitions, pictures, maps, radiators, etc.; cleaning of chalkboards, chalk trays, erasers and replacement of chalk; washing and dusting of walls; cleaning and disinfecting commodes and urinals; cleaning and washing other fixtures, walls and partitions, and replenishing supplies for restrooms; the emptying and cleaning of waste receptacles; dusting and cleaning of windows and other glass surfaces, sweeping and cleaning of entrances; and opening and/or closing buildings, doors and windows.

The custodian is not a porter, messenger, mailman or laboratory assistant for the faculty or students. Generally, services requiring technical direction at the time of performance such as cleaning chemistry laboratory bench tops, decontaminating radioactive facilities, or cleaning of extremely delicate apparatus are not classified as custodial, but are usually provided by the department having specific jurisdiction.

4. **Utilities** - this function includes all costs for energy for heating, cooling, light and power, gas, water and any other utilities necessary for the operation of the physical plant and normally includes:

(a) Salaries, wages and employee benefits of all personnel, including supervisory, who are assigned to the "Utilities" function (see section B(ii) for a definition of salaries and wages).

(b) Operation and maintenance of heating and power plant equipment including water plant and sewage disposal plants.

(c) Operation and maintenance of equipment in central air-conditioning plant.

(d) Purchase or rental costs to provide electricity, gas, water, and sewage treatment.

(e) Operation and replacement costs of all equipment used in connection with production of utilities.

(f) Maintenance of utility tunnels, distribution systems external to buildings for electricity, gas, steam, compressed air, chilled water, and high temperature water, domestic water, sanitary and storm drains. The expense *does not include* open ditch drainage and street, walks and grounds lighting maintenance.

(g) All costs of operating a power generation station net of external revenue.

Note: Recovery of utility costs, through sales to outside agencies should be apportioned by object of expense (i.e. salaries, supplies, utilities, etc.) to give a net cost by object of expense for that portion funded from the operating budget. Also note that the costs of telephone equipment rental, acquisition and switchboard, including related personnel and other costs, are not to be included under "Physical Plant". Such expenditures are to be reported under the functional area "Central Computing and Communications" in Volume I of *Financial Report of Ontario Universities*.

5. **Landscape and Grounds Maintenance** - this function includes operation and maintenance of campus landscape and grounds. It excludes the cost of areas for which the Physical Plant is reimbursed. The following are included:

(a) Salaries, wages and employee benefits of all personnel, including supervisory, who are assigned to the "Landscape and Grounds Maintenance" function (see section B(ii) for a definition of salaries and wages).

(b) Maintenance of all areas of the campus; all work associated with the care of trees, grass, shrubs, and flowers, the provision of nursery stock including seeds, fertilizers, and plant materials.

(c) Maintenance of roads and walks, irrigation systems, signs, and lighting for roads, walks and grounds.

(d) Snow removal and sanding (excluding parking areas).

(e) Maintenance of athletic fields, outdoor rinks, tennis courts and other outdoor recreational facilities.

(f) Maintenance of open ditch drainage, fences, retaining walls and rip rap.

(g) Care of miscellaneous fixed equipment such as benches, shelter houses, etc.

(h) Operation and replacement costs of all equipment used in connection with grounds maintenance.

(i) Trash and refuse handling, including recycling costs, which is not part of a municipal service. This excludes the disposal of hazardous wastes.

Note: The costs of maintenance and snow removal for parking lots are to be segregated and reported as an ancillary enterprise in the "Ancillary" fund.

6. **Security and Traffic** - this function includes all costs for watchmen, police services related to plant and campus security, and traffic control. Costs relating to *parking lots* are to be segregated and reported as an ancillary enterprise in the "Ancillary" fund.

   (a) Salaries, wages and employee benefits of all personnel, including supervisory, who are assigned to this function (see section B(ii) for a definition of salaries and wages).

   (b) Patrol of campus areas including exterior of building by police.

      (i) Patrol vehicles, radio communications cost, uniforms, and police equipment including radar.

      (ii) Office operation.

   (c) Watchmen of building interiors on a route system.

      (i) Uniforms and clocks.

      (ii) Operating and maintenance of vehicles used in watch service.

   (d) Closed circuit T.V. monitors, burglar alarms, etc.

Note: Expenditures relating to the administration of the safety programme are not to be included under "Physical Plant". Such expenditures are to be reported under the functional area "Other" in Volume I of *Financial Report of Ontario Universities.*

7. **Other** - this function is to be used *only* to the extent that costs are included in Physical Plant expenses as defined by the COFO-UO guidelines in Volume I. Examples of "Other" services and costs which are frequently the responsibility of Physical Plant Departments are as follows:

   (a) Purchasing, receiving and stores. If the purchasing, receiving and stores functions for supplies and equipment are centralized, then the expenditure should not be reported under Physical Plant. However, if these functions are decentralized, then purchasing, receiving and stores for supplies and equipment used by the Physical Plant department should be reported.

   (b) Hauling, moving and storing of furniture for other departments.

   (c) The costs of messenger, mailman, postal services, porter, or services requiring technical direction at the time of performance, which services are usually provided by the department having specific jurisdiction. For further reference see Item 3 - Custodial Services.

   (d) Property taxes and other municipal assessments, including those taxes for which compensatory grants are received from the Province.

   (e) The costs of vehicles and equipment which cannot be reasonably distributed to other functional areas of Physical Plant and are not reimbursed to Physical Plant.

      (i) Salaries, wages and employee benefits of all personnel who are fully assigned to this function (see section B(ii) for definition of salaries and wages).

      (ii) Operating costs, maintenance, etc.

   (f) Unabsorbed Physical Plant costs relative to chargeouts, not recovered from departmental work orders.

   (g) Property and boiler and machinery insurance.

(h) Renovations and Alterations - this item includes renovations, alterations and repairs which costs in excess of $10,000.

(i) External Contracts

(ii) Salaries, wages and employee benefits of all university personnel used to perform the work (see section B(ii) for definition of salaries and wages).

(iii) Costs of all furniture, furnishings, materials and equipment required in connection with renovations and alterations (funded by the operating budget) and not included in the functional area "Building Maintenance".

(i) All costs relating to the Operating fund for renting space and land together with property taxes paid thereon should be reported under the functional area "Other" within Physical Plant. If the rental agreement includes the provision of services (e.g. utilities, maintenance, cleaning, etc.) and if the costs of these services can be identified, these costs should be reported under the appropriate functional areas within Physical Plant.

(ii) DEFINITIONS OF OBJECTS OF EXPENSE

The same Object of Expense definitions apply to the preparation of Volume III, Physical Plant Operating Expenses, and the other volumes of the COFO-UO *Financial Report of Ontario Universities.* These definitions are as follows:

1. **Salaries and Wages**

(a) Academic Ranks - not applicable to Physical Plant Report.

(b) Other Instruction and Research - not applicable to Physical Plant Report.

(c) Other Salaries and Wages - this object will reflect all salaries, wages and payments to non- instructional staff (support staff) including among others, technicians, clerical and secretarial, professional and managerial, janitorial, trades and maintenance.

2. **Employee Benefits** - this object is to reflect an institution's contributions (with respect to salaries) for pensions (including payments for actuarial deficiencies and past service liability), group

life insurance, salary continuance insurance, dental plans, cost of Worker's Compensation, free tuition, unemployment insurance, early retirement benefits and other costs of an employee benefit programme. Memberships or other perquisites of employment are not to be reported here. Whenever an institution pays a premium or sets aside an amount for an employee, these amounts should be included under employee benefits. Other categories of compensation payments to employees shall be reported under salary expenditures (for example, salary continuance payments during sick leave or maternity leave).

3. **Library Acquisitions** - not applicable to Physical Plant Report.

4. **Equipment and Furniture** - this object will include all purchase, rental and maintenance expenses for equipment and furniture, including laboratory equipment (other than consumables), administrative equipment and furnishings (including carpets and drapery), copying and duplicating equipment, computing equipment, maintenance equipment. Instalment payments, lease purchase computer and installation costs are included.

5. **Operational Supplies and Expenses** - this object includes all expenses for supplies, postage, reproduction (i.e., all reproducing and printing carried out by the university), publications, telephone long distance charges for physical plant only, repair materials, office supplies, and computer software packages.

6. **Cost of Goods Sold** - not applicable to Physical Plant Report.

7. **Utilities** - expenses for fuel, electricity, water, and gas are reported in this object. The cost of utilities is to be included in total under the functional area "Utilities".

8. **Municipal Taxes** - property taxes for which there are compensatory grants as well as all other payments for municipal services out of operating funds are to be included.

   Taxes paid in relation to space rental are not to be reported here; these amounts should be included with other costs of space rental under the object entitled "Miscellaneous".

   Note: Municipal taxes for which compensatory grants are received from the province are to be shown in the Physical Plant functional area of operating expenses, as are other payments for municipal services (e.g., garbage disposal, fire protection) out of operating funds.

9. **Renovations and Alterations** - this object includes all expenses for renovations and alterations to existing university space.

   If these specific kinds of services are externally contracted they are to be reported under this object and not as "Externally Contracted Services". If internally performed, the total costs including labour and materials should be brought together in this object.

10. **Externally Contracted Services** - all expenses for services contracted to external agencies (except for renovations and alterations, and equipment maintenance) are to be included. Examples of expenses to be included would be cleaning contracts, security services, snow removal and similar time and material contracts under physical plant.

11. **Scholarships, Bursaries, etc.** - not applicable to Physical Plant Report.

12. **Principal and Interest Repayments** - not applicable to Physical Plant Report.

13. **Land and Site Services** - this object is to include acquisition costs, land improvements and site preparation, including landscaping, sewers and road. Also include fees and planning costs relative to the direct expenses.

14. **Buildings** - not applicable to Physical Plant Report.

15. **Miscellaneous** - this category of expenses includes amounts not reported in the previously identified objects. Categories of expenses may include recruitment, travel and field trips, relocation, entertainment, memberships, ceremonials, assistance to student organizations, insurance, legal fees, audit fees, consultants' fees, cost of renting space and land together with property taxes paid thereon. Expenses which can be properly identified as belonging to another object are not to be included here, particularly those which fall within the category of operational supplies and expense.

16. **Internal Cost Allocation** - not applicable to Physical Plant Report.

C. Table 2: Summary of Utility and Other Costs

Table 2 (exhibit 4) provides further detail of the "Utilities" object of expense by electricity, fuel oil, gas, water, sewage treatment and other.

The table also provides further detail of the total cost of the "Other" function by the following types of expense:

- Purchasing and receiving
- Furniture moving and storage
- Costs of services
- Municipal taxes and other assessments
- Vehicle and equipment costs
- Other costs
- Insurance
- Renovations and alterations
- Cost of rental space

D. Table 3: Summary of Space By Major Function

Table 3 (exhibit 5) indicates in Gross Square Metres (G.S.M.) the size of space serviced by the three major functions of Physical Plant, i.e. Building Maintenance, Custodial Services and Utilities. The Physical Plant Report deals with costs as they pertain to the Operating Fund only, and, therefore, the space indicated for each major function is equal to the G.S.M. of space serviced by the cost of Physical Plant in the Operating Fund. For example, the G.S.M. of ancillary space, the cost of which is included in the Ancillary Fund in Volume I of the *Financial Report of Ontario Universities,* is not included on Table 3. Normally it is anticipated that the G.S.M.s reported for each major Physical Plant function are the same. If they are not the same, explanatory comments should be provided at the bottom of the Table.

E. Table 4: Average Annual Unit Cost of Utilities

Table 4 (exhibit 6) indicates the average annual unit cost at which utilities have been purchased during the year from utility companies. Utilities include electricity, fuel (gas, oil), water and sewage treatment. A number of institutions produce electricity internally for their own consumption at a unit cost which is lower than the unit cost of the local utility company. The average annual unit cost on Table 4 should not include the internal unit cost. Instead, a note should be made at the bottom of the Table.

1. As identified in the OAPPA Guidelines and Definitions, reported Physical Plant expenses will relate to the Operating Fund only and will be net of expenses relating to other funds. Accordingly, universities are reminded that the area figures should relate to net costs in the operating budget. It is expected that universities will report the same G.S.M. area for the three functions identified above. If different G.S.M. areas are shown, please provide explanatory comments.

2. Read "Classification of Functions" in the Guidelines and Definitions carefully and ensure that the supplementary data corresponds with the definitions therein.

SUMMARY STATEMENTS

McMaster University has not conformed to the guidelines and definitions in reporting its physical plant operating expenses for the fiscal year ended 30 April 1991. Consequently, figures for McMaster have not been included in the current report.
